TOP SECRET

TOP SECRET

- OGI forwarded a paper on the threat assessment for the President's trip to Western Europe to the Secret Service.
- Major DoD elements involved in laser research attended an OSWR conference on lasers on the tactical battlefield.
- OSWR will brief Presidential Science Advisor Keyworth on commercialization of recombinant DNA technology in Japan.

National Intelligence Council

- C/NIC met with Messrs. Ikle, Olmer, Wolfowitz, Bailey and Leland to discuss improving the NSC staffing process.
- NIO Africa participated in State meetings regarding State's requests for interagency assessments on increased South African activity on behalf of the insurgents in Mozambique and on Zaire's economic situation.
- NIO Africa will attend an SAIS conference during 15-16 April on "U.S. Security Interests and Regional Instability."

Personnel

- The office is chairing the task force to review concerns of former spouses of Agency officers. The results will be transmitted to our oversight committees, both of which favor some legislation to adopt the former spouses provisions of the Foreign Service Act.
- The compensation study is now expected to be completed by 15 April.

25X1

General Counsel

- We expect the oversight committees to draft language for inclusion in the Intelligence Authorization Bill to adopt the former spouses provisions of the Foreign Service Act for all CIA officers having at least five years' service overseas, whether such officers participate in CIARDS or the Civil Service system.
- The SSCI staff is drafting a conference report on the Intelligence Identities Protection Act.

Inspector General

- No report.
